Dear Chris,

Greetings from Hong Kong! It's exciting to be able to introduce to you Tsim Sha Tsui – one of my favourite places in my home city.

There are different tourist spots in Tsim Sha Tsui, and a special one is the Clock Tower. It has been standing beside the Victoria Harbour for a hundred years. The granite-built clock tower is a landmark of the city. It is always packed with travellers at weekends.

Second, the 1881 Heritage is also a great place. It has lots of distinctive building. Until 1996, 1881 Heritage has always been the headquarters of the Marine Police in Hong Kong. The Victorian style of the building itself is a touch of classical fragrance and is also its highlight.

Another popular destination you must visit is the Victoria Harbour! Its skyline view has been voted as one the most beautiful ones in the world, and its night view is truly amazing. You can also enjoy "A Symphony of Lights", a spectacular light and sound show at Victoria Harbour at night.

I hope you can come to my home city to visit me one day!

Cheers,

Allie
